

CALL FOR PROPOSALS

Background:

The mission of the Rakai Health Sciences Program (RHSP) is to conduct innovative and relevant health research in infectious diseases, communicable and non-communicable diseases, and reproductive health and to provide health services to improve public health and inform policy. With funding from Centers for Disease Control and Prevention (CDC)/PEPFAR, RHSP is implementing comprehensive HIV/AIDS services in the districts of Rakai, Kyotera, Masaka, Kalungu, Bukomansimbi, Lyantonde, Lwengo, Sembabule, Butambala, Gomba, Mpigi, and Kalangala, in Masaka region. The objective of this project is to achieve rapid HIV epidemic control in Masaka region through the implementation of targeted, user-friendly, innovative, evidence-based, efficient and sustainable differentiated service models (DSDMs) for increased demand, linkage, retention, and adherence to HIV services.
